

Activity Sheet 16

Timeline

Purpose

The purpose of this activity is to review concepts and methodologies used to address transport issues from a historical perspective. The aim is to assess the changes in approaches to addressing rural transport issues, to draw on lesson learnt from the past, and to examine how this may feed into ways in which rural transport problems may be addressed today.

This activity may be carried out for the country in which you are working.

Group Activity

1. Construct a timeline on a flip chart. The time line should illustrate conceptual and methodological changes that have taken place in the provision of rural transport since the 1960's.
2. Indicate on your flipchart the problems and limitations with each of the transport planning approaches and methods mentioned.
3. Prepare to present your findings to the plenary.
