

Activity Sheet 44

Types of Participation

Purpose

The purpose of this activity is for participants to define the different types of participation and to consider how these types affect the level of participation of a community in the project cycle process.

Group Work

1. Discuss the different types of participation and what each type means.
2. Rank the cards in order of degree of community participation, starting with the lowest level of participation.
3. Discuss these rankings in your groups, and the reasons why you placed each 'type of participation' at that particular level.
4. What are the implications of the different levels of participation for the planning, implementation, monitoring and evaluation of RTI (rural transport infrastructure) projects?
