Project for unlocking rural and remote areas access to basic infrastructures and services

Placide BADJI, PhD
Road transport policy Officer, AUC
May 2018
60% live in rural areas
34% live within 2 km of rural road
Urban and rural electrification are 71% and 28% respectively
Between 23% and 99% live in rural areas
Rate of access to drinking water
Internet Penetration
Crop Produce lost

60% live in rural areas
10%
15%

An Integrated, Prosperous and Peaceful Africa
FACTORS CAUSING POOR INFRASTRUCTURE

1. Failure to take into account rural areas in designing projects
2. Non-inclusion of surrounding villages development in financing agreements
3. Lack of clear plan for smooth implementation of projects
4. Inadequate financing from the private sector for rural infrastructure
INTEGRATED INFRASTRUCTURE

Policies
- Investment to stimulate investment
- Dig Once Policy
- Job Creation Strategy
- Local Power Generation and Distribution (Small grid, Smart Meters)

Hub for Basic Services
- e-Government
- e-health / CDC
- e-Agriculture
- e-Education
- e-commerce

Road Transport
- Satellite
- Power Generation and Distribution (Smart Grid, Smart Meters)
- GSM
- Clean Water
- FIBER CABLE
- Substations
- Community Service Center
- One Stop Border Post

An Integrated, Prosperous and Peaceful Africa
INTEGRATED ACCESS TO BASIC INFRASTRUCTURE IN RURAL AND REMOTE AREAS IN AFRICA

Overall tool: design, plan and implement basic infrastructure projects (Energy, Water, ICT and transport) in an integrated manner

1. Empowerment of communities to contribute to infrastructure development
   - Small mechanics for fixing agricultural devices and motorcycle
   - Creation of small processing units of local products
   - Transformation of ways of communicating, studying, developing, organizing work

2. Development of collaborative / shared Economies in the digital era
   - Smart grids and Smart Meters
   - Smart Transport
   - E- Services

3. Strategic approach
   - Integrated and Integrating approaches to Infrastructure projects
   - New approach to Corporate Social Responsibilities (CSR)
   - Stimulating the Investments in rural and Remote areas
Main objectives of a study:
The expected work of the study is twofold:

1- Development of an integrated strategy for the sustainable development of access to priority infrastructure by rural and remote communities.
This strategy:
- Principles and guidelines throughout the continent for access to basic infrastructure and services.
- Coherent tool for programming and investment planning in this subsector
- Establish the basis for dialogue with all stakeholders to promote access to basic infrastructure and services

2- Elaborate 2 to 3 integrated pilot projects for rural and remote communities access to basic infrastructure, around selected regional infrastructure projects ongoing or projects already implemented under PIDA.
