DP4 IMPROVED GOVERNANCE STRUCTURE

1. PERMANENT SECRETARIES AND RECs GROUP
To increase coordination among SSATP main beneficiaries and stakeholders, a high-level working group will be established to bring the knowledge created and disseminated at the decision-making technical level. This is particularly important to enhance visibility, coordination and collaborative in-country work among the countries and the donor communities.

2. DEVELOPMENT PARTNERS COORDINATION GROUP
The DP3 MTR signaled the lack of coordination amongst the donors and recommended the creation of a committee to enhance coordination around key advocacy initiatives, facilitate the dissemination and uptake of key SSATP knowledge products. They will also act as peer reviewers for Mid-Term Reviews and Program completion reports.

3. LOCAL STAKEHOLDER COORDINATION GROUPS
The aim of this group is to enable the flow of information that is systematically sharing, and cross-fertilizing knowledge created by SSATP. These groups will be organized locally, under the leadership of the Regional and Thematic Area Leader (RTAL), and consist of development partners, member countries representatives, and Regional Economic Communities (RECs).

4. CROSS-CUTTING AREAS
Although transport remains a key driver of development, it cannot achieve its full potential for Africa unless cross-cutting issues like human capital, gender, inclusion, climate and digital technologies are adequately addressed. The transport sector vision that SSATP supports is expected to lead the change towards a safe, sustainable, and inclusive transport system.
