

Activity Sheet 25

The case for labour-based methods

Purpose

The purpose of this activity is to explore the benefits of using labour-based methods for Rural Transport Infrastructure developments, drawing on participants' experiences. These benefits occur at micro and macro levels.

Group Work

1. Discuss the following question:

What are the benefits (at micro and macro levels) of labour-based methods as part of the strategy to improve rural transport infrastructure?

2. Prepare your findings on a flip chart.
3. Elect a person from your group to present your findings to the plenary.
